

# **RISK MANAGEMENT POLICY 2020**

1 The Council has a risk management system in place that will help it to manage risk. The internal auditor may use this risk management system to help to identify what tests to carry out as part of the internal audit. Members are ultimately responsible for risk management because risks threaten the council's ability to achieve its objectives. The clerk will ensure that members should:

- Identify the key risks facing the council
- Evaluate the potential to the council of one of these risks taking place; and
- Agree measures to avoid, reduce or control the risk or its consequence.

2 There are several common themes that are likely to emerge. These might include:

- Physical assets – buildings, equipment, IT hardware etc.
- Finance – banking, loss of income, petty cash etc.
- Injury to the public – in playgrounds and recreation grounds, at burial grounds etc
- Complying with legal requirements – agendas and minutes, burial records, etc
- Councillor propriety – declarations of interest, gifts and hospitality etc

3 Classification of risks will be high, medium or low. There are three main ways of managing risk:

- Take out insurance
- Work with another party to reduce the risk
- Manage the risk yourself.

Area	Risk	Level	Control (and agreed improvements)	Detail/Review/Renew Frequency
Assets	Protection of physical assets	M	<p>Buildings insured. Value increased annually by RPI.</p> <p>New assets acquired are valued and added to Insurance policy</p>	<p>Insurance renewed on 1<sup>st</sup> June annually. 1-year long term agreement.</p> <p>Insurance Valuations conducted as required and insurance company informed.</p> <p>Property values as advised by the Local Authority and insured accordingly.</p>
